TRIP REPORT:

On the 2nd and 3rd day, we were lucky to spot red pandas on both occasions. We actually saw two different individuals—one was a sub-adult male and the other a female. Both of them were busy munching on *mele* fruits, clearly enjoying their meal. They were very lively and active, moving around the branches with ease, climbing quickly, and showing off their playful side.

Fourth day morning we got a pair of Yellow-throated marten, they were foraging in the ground searching for the food and at the same time we did spot a Northern Goshawk perching on a dry branch but bit far. We choose to capture Yellow-throated Marten first.

HERE IS A WONDERFUL PHOTOGRAPH CAPTURED BY ANTHONY SURAJ GOMES

FEEDBACK

RAHUL BHATTACHARYA

We are very happy to have sighted the elusive Red Panda. Pritam as a guide is fantastic. I would love to do a birding trip again with him. However, I feel a better advertisement is needed over social media platform.

ARPITA BANERJEE

Most memorable sighting of Red Panther Back to back for two consecutive days. Excellent team who have supported every possible way. Expectation will be more for the next trip with you. Great team. I will expect more active participation in social media very soon.

DEBASISH MISTRY

Mr.Pritam promised us to show the Red Panda, He showed us two times during our trip. We also got various birds and Yellow-throated marten. Team is very hard working. Thank you.

ANTHONY SURAJ GOMES

This is the first time I have been part of team of Pritam Ghosh. I am happy to see the red panda twice in a tour. But since my expectation is very high, I want to see it more. I saw some birds also. Overall, it is a very good trip. Pritam Kumar Ghosh is a gentleman. He kept his promise. In future, I definitely do more tours with him.

PARTHASARATHI SAHA

Feeling fortunate enough to have such a successful trip for sighting of red panda and birding with Pritam Kumar Ghosh and his associates. I will always be in touch with him for future tours, like May we want to come for the birding trip at Singalila National Park and next in North Sikkim. Thanks Pritam
